

# HARMFUL ORGANISM CLEANSE KIT™ INSTRUCTIONS

The lifecycle of harmful organisms, from eggs to maturity, is approximately 6 weeks. For this reason, it is absolutely necessary to cleanse for the full 40 days. The Latero-Flora will help create conditions inhospitable to unwanted organisms in the bowel while also promoting a welcoming environment for beneficial intestinal flora that aid in normal digestion.

## Daily Instructions

Take 3 capsules of Paratrex in the morning 20 minutes before breakfast and 3 capsules 20 minutes before lunch for 40 days. Take 2 capsules of Latero-Flora every other day, first thing in the morning, on an empty stomach, 20 to 30 minutes before breakfast for the entire 40 days.
